Fuel Tank Capacity:..... 422 gal.

Since its launch 12 years ago, Absolute is considered one of the leaders of Italy's powerboat industry. Now in its third year in North America, Absolute is making its mark. The recipient of multiple international awards, Absolute is known for yachts of superior design and innovation, using modern construction technologies and materials leading to incredibly spacious interiors, low noise levels, minimum vibrations, and great handling on the water.

Yacht owners wish to enjoy their time on the water with similar comforts they enjoy at home. The Absolute 52 Fly embodies this philosophy. A large sofa in the cockpit greets guests coming aboard. Within reach, there's a large table where as many as eight people can spend time together while enjoying beautiful outdoor views.

The reclining sunbed on the flybridge is for anyone who wishes to sunbathe. A second sunbed can be found in the bow foredeck area by walking along the wide sidedecks. Here reclining seats help everyone enjoy the environment in comfort.

When accessing the inner spaces, the 'dining zone' has a table for lunches and dinners, offering unobstructed outside views through large windows. The galley

features a full-size fridge, fiberglass stove, microwave oven, and optional dishwasher. It's conveniently located to serve both salon and cockpit, so that all areas look like one single fluid space.

Going toward the bow, one's eye catches the helm station with its modern technology. Steering is a pleasure thanks to the comfortable captain helm seat and the precision offered by the IPS propulsion technology.

At night, the lower deck treasures appear. The owner has a full-beam cabin furnished with double bed, sofa, and personal head. A few steps away, the VIP cabin has a double bed and another head compartment. An additional full-size third cabin with two twin beds is ready to accommodate yet more guests on board.

Fuel Tank Capacity: .....449;502 gal.

## 56 STY (SPORT YACHT)

Absolute's reputation as an innovative builder has found its mark in the Absolute 56 STY, a sport yacht with a striking profile featuring a retractable sunroof that floods the interior with sunlight.

With a large L-shaped sofa along with a solid teak table, the 56 STY's cockpit seats up to 10. Doors that slide wide open integrate exterior and interior spaces. The optional electric awning extends far aft to provide shade on

hot days, while the standard cockpit stereo plays one's favorite tunes.

Inside, the virtues of an open plan layout are evident with a functional galley and a comfy dinette right across. Adjacent is the salon area, featuring a large U-shaped sofa and love seat, both offering superb views outside.

The captain's helm has an ergonomic dashboard holding two 12-inch GPS screens (15-inch screens optional). Sight lines from the helm are superb throughout, so important during navigation as well as for docking using the standard IPS joystick.

The wide companionway provides access to the cabins. The full-beam master features a large double bed, big windows, comfortable sofa, and a wide head compartment with dedicated shower. Guests can count on two full-size cabins: the VIP bow cabin, equipped with another double bed and large windows providing great water views, and the third cabin featuring two single beds with full stand-up headroom.

# 64 FLY

SPECIFICATIONS	
Total Length:	64'4"
Beam:	16'11"
Fresh Water Capacity:	171 gal.
Fuel Tank Capacity	792 gal.

Offering the most spacious spaces of any yacht in its size class, the impressive Absolute 64 Fly comes with superb performance and seakeeping abilities—all while offering reduced fuel consumption and emissions.

The yacht's lines carry the unmistakable Absolute signature, extending throughout with fine Italian materials for the interior, natural wood selections, leathers, and stainless steel fixtures. The accommodations layout is beautifully executed. Four spacious cabins welcome guests, offering comfort, privacy, and relaxation. The master and the VIP cabins deserve special mention: their innovative layouts and sheer volume are class leading, not to be found on other yachts of comparable size.

Large windows abound. Natural light and unobstructed views outside make one feel in unison with the outdoors. Full electronic navigation systems come as standard. The captain has two large screens at his disposal along with a full array of controls, all ergonomically and functionally positioned.

The 64 Fly's upper deck flybridge is stunning. Largest in its class, the flybridge features a

very spacious seating and dining area, with a table easily accommodating eight. The standard electric bimini top or the optional hardtop with electric sunroof provide shade on sunny days. The forward-facing companion seat has space for three, and easily converts into a large sunpad. The flybridge aft area is actually a balcony over the water,

offering majestic horizon views. Last but not least, a full-size bar with sink and serving counter is unique in this size class.

For the owner and his guests, the Absolute 64 Fly will offer unique experiences and memorable moments.

## NAVETTA 58

If one were to meet an experienced, seaman, an 'old salt', one cannot but admire his experience and ability to handle most all situations on the water. The 58 Navetta was created with the 'old salt' in mind, while simultaneously taking the modern yachtsman into consideration.

Access on board can be chosen from one of the four entrances, two of which are on the

stern platform and two directly from the side passages. The high bulwarks and protective gunwale along the entire side decks give a feeling of safety, as do the handrails throughout.

All external areas provide those on board with clear views of the water. Safety is yet again emphasized by the great visibility

from both helm stations, by the two independent accesses to the engine room, and by the vessel's superior maneuverability in all weather conditions.

The comfort of the 58 Navetta can be found in many of its features: three sunbathing areas, two complete galleys, separate accommodations for the owner, three double cabins with private bathrooms and all accessories, household appliances, hanging lockers, and multimedia devices at owner's preference.

All areas, from the master cabin to the crew area, from the engine room to the heads, from the living room to the guests' quarters, feature the highest ceilings in the category. Floors without steps and full-size doors are just like in a real home.

As a result of years of experience with IPS technology, the Absolute-Volvo collaboration allows the 58 Navetta to achieve the best fuel economy in its category.
