

## MAKING WAVES

*Absolute's* newest flagship, the Navetta 73, exemplifies *Absolute's* relentless pursuit of building a luxury yacht that seamlessly combines elegance and innovation. She recently premiered at the Cannes Yachting Festival where it won the World Yachts Trophies 2017, in the category of "Most Innovative." The Navetta 73 draws from the success of *Absolute's* Navetta family and features a traditional voyager design, which promotes maximum functionality and the versatility of internal and external volumes. Featuring a luxurious forward master cabin and a full-beam VIP stateroom, it's easy to consider this a yacht possessing two master staterooms. In addition, the craft has an additional VIP stateroom and a fourth stateroom with twin berths, all of which are well appointed with luxurious finishes. Powered by two 1,000-horsepower Volvo Penta engines, the yacht demonstrates impressive performance and fuel efficiency at a cruising speed of 22 knots and a maximum speed of 26 knots. Supported by a "Glass Cockpit System," the main controls are at the tip of your fingers with (3) 22-inch Garmin displays along with a 24-inch Garmin display, allowing you to navigate with ease. Overall, the Navetta 73 makes a bold statement of *Absolute's* ability to deliver a luxury yacht that addresses the needs of the most discerning yachtsman.
