## New Model: Absolute 45 Fly

It has to be one of the best medium sized flybridge motor cruisers to what concerns layout, and clever design to have been presented in its size. This is in short words the Absolute 45 Fly, who continue with the clever intuition this builder has showed since its inception a decade ago. An evolution of the two years ago launched 43, Absolute says that a lot of the input for the 45 comes from the launched past year 72 Fly flagship, but I add that design and layout wise this nice new model learns a lot from the 55 series, also presented in 2012, which is among the best yachts in its size type yacht to what concerns space and plan usage. The Absolute 45 Fly main attractions are the astern galley, spacious full beam midships owners room, large view windows in both decks, and the aft sun-pad. To like is the windows surrounding the main saloon with the large openings to fore in both port and starboard sides. The 45 Fly also surprises for offering an extra single berth third cabin to aft, which can be categorized as crew quarters but can also be viable as an extra guest cabin. Absolute finishes this cabin to the same standard as the rest of the inside. The 45 Fly is powered by twin Volvo 435hp engines, with Absolute continuing its full support as since 2006 to the IPS pods which also for a couple of years propels all its line.

### **Technical Data:**

LOA - 14.13 m (46.3ft)

Hull Length - 13.65 m

Beam - 4.15 m

Draft - 1.21 m

Fuel Capacity - 1300 l

Water Capacity - 350 l

Accommodation - 5 berths in 3 cabins

Max Persons - 12

Engines - 2 x Volvo D6 435hp

Propulsion - Volvo forward looking dual propeller pod drives

Project - Absolute Research and Development Lab

Certification - CE B
