New Model: Absolute 52 Fly

It's been an interesting development curve at Absolute and what it did in between the fifty to sixty feet in its flybridge range. Just a reminder Absolute debuted in this category with a 50 Fly back in 2010, a model which was developed in a 53, 55 and now a 56. Unlike the other models the Absolute 52 Fly is a new hull with a slimmer beam to the models mentioned above. The new Absolute 52 Fly captures itself for its perfect layout of space; nice flybridge plan up top, aft deck with sun-pad, astern galley, and three large cabins below including a full beam owners cabin. Other interesting features is the very open feel of the saloon thanks to the large view windows, an Absolute feature since a few years now. Power for the 52 Fly is twin Volvo 435hp engines and IPS pods, nowadays propelling all the Absolute line which is a record in its own right. Absolute is estimating light load top speeds of 32 knots, with a 26 cruise.

Technical Data:

LOA - 16.0 m (52.6ft)

Hull Length - 14.39 m

Beam - 4.46 m

Draft - 1.38 m

Fuel Capacity - 1600 l

Water Capacity - 450 l

Accommodation - 6 berths in 3 cabins, 1 crew cabin berth

Max Persons - 14

Engines - 2 x Volvo D6 435hp

Propulsion - Volvo IPS forward looking dual propeller pods

Speed - 32 knots max, 26 knots cruise

Project - Absolute Research Lab

Certification - CE B
