

## Absolute 52Fly and 56Fly

A relative newcomer on the mid-range scene is the Italian-built Absolute Yachts. Since 2002, the builder has slowly expanded its offerings to include five different lines from the speedy sport cruiser line to the full-displacement Navetta. There is a family styling of sleek exterior lines that are distinctly Italian. This year the builder will unveil two new flybridge models to the North American market, the 52Fly and the 56Fly. Both yachts sleep six in three cabins, including a full-beam master with ensuite, a forepeak VIP and a twin, and have a flybridge made for outdoor living with a BBQ and second helm. The larger model includes extra outdoor space for those who prefer

more seabreezes in their hair. [absoluteyachts.com](http://absoluteyachts.com)
